## Comments Report

## 3. Open Response Questions:

3.1) What do you like most about the course and instructor?

- Her availability to students. She was very helpful
- Instructor was knowledgeable and knew quite a bit about the class.
- Katie does a great job of explaining difficult concepts in ways that are easy to understand. I like how she gives real world examples to demonstrate concepts. I also appreciate how she goes out of her way to ensure our success as students by holding extra office hours and offering to attend student study sessions!
- Katie is very smart and kind. She was very helpful during office hours.
- Katie makes really complex things so easy to understand. I wish I could have gone to her office hours more often.
- She was always able to explain things to whoever needed extra assistance. I learned so much more by going to office hours than I did in class, partially because the material is so dense that it requires more than just lecture. She really was amazing at ensuring everybody who came to her understood the material.
- The class was challenging and fun, I learned a lot. And Katie helped us a lot!

3.2) What could the instructor do to improve the course, if anything?

- Be sure all the students understand the basic concepts and terminology at the very beginning of the course before getting too in depth.
- I wish Katie would teach at least half of this course so I could understand what was going on.
- N/A
- Nothing
- Nothing! Katie does an awesome job!
- Nothing. She's literally one of, if not the, best T.A. I've interacted with.
- Possibly create a database of commonly used terminology and meanings or processes of obtaining specific data.

3.3) Other comments or suggestions.

- I wish all TA's were as helpful and involved as Katie was in this course!
- I would not have passed this class if it wasn't for your help (2 Counts)
- N/A
- Thank you Katie
